Important Questions	Answers	Why This Matters:
What is the overall deductible ?	\$0	See the Common Medical Circumstances table below for costs of services covered by this plan .
Are there services covered before you meet your deductible ?	Yes.	This plan covers preventive services and vaccines even if you have not yet met the deductible amount. However, a copayment or coinsurance may apply.
Are there other deductibles for specific services?	No.	No deductibles for specific services.
What is the out-of-pocket limit for this plan ?	For medical-hospital services and medications provided by in-network providers - \$6,350 Individual / \$12,700 Family.	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan , you have to meet your own direct out-of-pocket limits until the family's out-of-pocket limit has been reached.
What is not included in the out-of-pocket limit ?	Premiums, payments for non-essential benefits, payments for non-covered services, services provided by out-of-network providers.	Even though you pay these expenses, they don't count toward the out-of-pocket limit .
Will you pay less if you use a network provider ?	Yes. See www.ssspr.com or call 1-800-981-3241 for a list of network providers .	This plan uses a provider network . You will pay less if you use a provider in the plan's network . You will pay the most if you use an out-of-network provider , and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.
Do you need a referral to see a specialist ?	No.	You can see the specialist you choose without a referral .

All [copayment](#) and [coinsurance](#) costs shown in this chart are after your [deductible](#) has been met, if a [deductible](#) applies. <https://www.healthcare.gov/sbc-glossary/>
